**Recommendation: Information**

**Background:** Wildfires are a common hazard across California, and the desert is no stranger to them. Depending on conditions, small fires can become firestorms very quickly.

As the hotter temperatures arrive, local fire departments are taking preventative actions to limit the risks. Last month, the Palm Springs Fire Department began annual brush removal of 87 acres that cover 27 high potential wildfire zones comprised of City-owned vacant lots throughout Palm Springs. Officials also launched a public education campaign focused on having residents clear hazardous brush from 1,254 lots on the west and south sides of the city.

The Riverside County Board of Supervisors took action to restrict access to hiking areas such as Whitewater Canyon near Cabazon. The decision is part of a longstanding practice to limit risks during wildfire season.

Robert Fish, Riverside County Fire Deputy Chief for East Operations, will provide the Public Safety Committee with additional insights on the steps the department is taking during the June meeting.

# Some popular Riverside County hiking areas to close June 1 due to fire risk: What to know

**City News Service** Palm Springs Desert Sun

The Board of Supervisors on Tuesday authorized Riverside County Fire Department Chief Bill Weiser to close access to multiple outdoor recreational locations for the duration of Southern California's wildfire season to minimize public safety risks.

In a 5-0 vote without comment, the board granted the chief's request, as it has done since 2007, giving Weiser carte blanche to close the designated grounds, effective June 1.

"Due to the potential for large damaging human-caused fires, the county fire chief has determined these areas should be closed, except on public roadways and on inhabited areas of private property within the closure areas," according to a county fire statement. "The potential for large damaging fires ... this year may be enhanced by the extreme vegetation growth experienced throughout Riverside County."

Wildflower and other blooms have saturated and covered previously open trails, especially in the western half of the county.

Wildfires in any of the locations due for closure would be difficult to manage, given their terrain and remoteness, officials said.

## Riverside County recreation areas that will close June 1 due to wildfire risk

The following sites fall under the county's closure order:

- Bautista Canyon, southeast of Hemet;
- Eagle Canyon, between Lake Mathews and the county landfill, just north of Cajalco Road;
- Indian Canyon and North Mountain, around San Jacinto;
- the Ramona Bowl, south of Hemet;
- Steel Peek, northwest of Meadowbrook, due west of Good Hope and south of Gavilan Hills; and
- Whitewater Canyon, near Cabazon.

Officials pointed out that the Ramona Bowl will remain accessible between sunrise and noon daily, with the area off-limits any other time of day.

By reducing foot and off-road vehicle traffic in each location, the chances of a wildfire starting are much slimmer, according to the fire department.

Closure signs will be posted at entry points to warn potential violators of fines and other penalties. First offenses usually result in a minimum \$100 ticket.

Residents will be permitted to come and go as they please.

The closures are usually lifted at year's end but can be rescinded before then by the chief, depending on the timing of winter rains.

**Recommendation: Information**

**Background:** The California Highway Patrol (CHP) is the seventh largest law enforcement agency in the nation. The Indio station is responsible for a large geographic region, patrolling Interstate 10, State Routes 62, 86, and 177 and the unincorporated areas in between.

In recent months, Public Safety Committee members have expressed interest in street racing trends and other topics that the CHP addresses regularly. Leadership from the CHP's Indio station, including Sgt. Eric Pena, will attend the June meeting to provide an update on their enforcement efforts.

**STAFF REPORT**

**Subject:** Establishing a Vision Zero Program

**Contact:** Mark Lancaster, Assistant Director of Transportation ([mlancaster@cvag.org](mailto:mlancaster@cvag.org))  
Randy Bowman, Transportation Program Manager ([rbowman@cvag.org](mailto:rbowman@cvag.org))

---

**Recommendation: Adopt Resolution No. 24-002 to establish a Vision Zero Policy and direct the Executive Director to develop a Vision Zero Action Plan**

**Transportation Committee: Concurred (Meeting of June 3)**

**Background:** CVAG has prioritized investments that make it easier and safer to walk, bike or take alternative modes of transportation across the Coachella Valley. This has included incorporating the region's Active Transportation Program (ATP) as part of the Transportation Project Prioritization Study (TPPS) and leading construction of CV Link, Arts and Music Line and CV Sync. As part of this effort, staff is now recommending CVAG establish a Vision Zero policy, which is founded on a safe systems approach that recognizes humans make mistakes and roadway systems and policies should be designed to protect them. Vision Zero applies to motorists, pedestrians and bicyclists of all ages and abilities with the goal of eliminating fatalities and severe injuries in a given community or region within a set timeframe.

Vision Zero reinforces the investments that CVAG and its member jurisdictions are already making – and better positions the region as it seeks federal and state funding sources to facilitate project delivery and minimize the use of local funds for larger projects. One long-standing federal grant program administered by Caltrans is the Local Highway Safety Improvement Program (HSIP). The purpose of the HSIP program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on Tribal land. CVAG member jurisdictions frequently apply for HSIP funding for safety projects in their communities. Another, newer federal grant program is the Safe Streets and Roads for All (SS4A) program, which will provide \$5 billion in grants nationwide over a five-year period (Federal Fiscal years 2022 through 2026). SSS4A funds regional, local and Tribal initiatives to prevent roadway deaths and severe injuries.

One of the key elements on receiving SS4A grants is adoption of a Vision Zero Policy and a clear commitment to Vision Zero. Following adoption of the Vision Zero resolution, CVAG staff will organize a multi-disciplinary task force comprised of representatives from CVAG member jurisdictions and other stakeholders to advise the CVAG Transportation and Executive Committees on the development and implementation of a Vision Zero Action Plan.

By adopting the Vision Zero Resolution and approving the development of an Action Plan to become a Vision Zero Region, CVAG can be better situated to apply for and receive safety funding

and support CVAG member agencies in their pursuit of safety funding and project implementation on regional arterials across the Coachella Valley.

**Fiscal Analysis:** There is no fiscal impact at this time. With the Executive Committee approval of this item, CVAG staff will seek various funding options including grant opportunities and other sources and return to the Executive Committee for further consideration and approval.

Draft Resolution No 24-002

## RESOLUTION NO. 24-002

**A RESOLUTION OF THE COACHELLA VALLEY ASSOCIATION OF GOVERNMENTS EXECUTIVE COMMITTEE, DECLARING TO BECOME A VISION ZERO REGION, ADOPTING A VISION ZERO POLICY, APPROVING THE DEVELOPMENT OF AN ACTION PLAN WITH THE CLEAR GOAL OF ELIMINATING TRAFFIC FATALITIES AND SEVERE INJURIES WITHIN THE NEXT TEN YEARS AND FINDING THAT SUCH DECLARATION IS NOT A PROJECT SUBJECT TO ENVIRONMENTAL REVIEW UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT**

**WHEREAS**, “Vision Zero” is a strategy to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, equitable mobility for all; and,

**WHEREAS**, a high percentage of traffic injuries and fatalities involve pedestrians, bicyclists, and other vulnerable users; and,

**WHEREAS**, CVAG holds that all traffic-related fatalities and severe injuries are preventable and unacceptable, and will endeavor to take a systemic approach to the many factors that contribute to safe mobility, including roadway design, driver behaviors, technology, and policies.

**WHEREAS**, CVAG will continue to prioritize the safety of the Coachella Valley’s transportation network, providing regional programs and resources in support of the local safety initiatives of its member agencies, with the shared goal of achieving zero traffic-related fatalities and severe injuries.

**WHEREAS**, Vision Zero provides a framework for reducing traffic deaths to zero through a combination of safe engineering measures, education, and enforcement practices; and,

**WHEREAS**, Vision Zero has been adopted and implemented in many cities throughout the country, and has successfully reduced traffic fatalities and severe injuries occurring on roads, streets and highways,

**NOW, THEREFORE, BE IT RESOLVED** by the CVAG Executive Committee as follows:

**SECTION 1:** The above recitals are true and correct and are a substantive part of this Resolution and findings of the CVAG Executive Committee.

**SECTION 2:** The CVAG Executive Committee hereby commits to adopt a Vision Zero Policy and approve the development of a Vision Zero action plan with a clear goal of eliminating traffic fatalities and severe injuries on roads in the Coachella Valley region by 2035.

**SECTION 3:** Prioritize traffic safety within infrastructure projects and implement strategies and engineering design measures that complement the Vision Zero approach to traffic safety and engage key departments, stakeholders, policymakers and the community members to build leadership, collaboration and accountability.

**SECTION 4:** This Resolution has been reviewed with respect to the applicability of the California Environmental Quality Act (CEQA). CVAG staff has determined that authorization for the CVAG Executive Director to comply with the Act do not qualify as a “project” as defined in State CEQA Guidelines section 15378. Adoption of the Resolution does not have the potential for

resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment. Accordingly, the action is not a “project” subject to CEQA. Second, Section 15378 explicitly excludes from its definition of “project” the following: “organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment” (State CEQA Guidelines, § 15378(b)(5).) The action to adopt a Vision Zero policy constitutes an organizational or administrative activity that will not result in a physical change in the environment, and it therefore is not subject to CEQA.

**SECTION 5:** If any section, subsection, paragraph, sentence, clause or phrase of this Resolution is declared by a court of competent jurisdiction to be unconstitutional or otherwise invalid, such decision shall not affect the validity of the remaining portions of this Resolution.

**SECTION 6:** The Secretary shall certify to the adoption of this Resolution.

**PASSED, APPROVED AND ADOPTED** by the CVAG Executive Committee at a regular meeting held on the 24<sup>th</sup> day of June 2024, by the following vote:

---

Scott Matas  
CVAG Chair

**ATTEST:**

Tom Kirk
